Pre-Payment solutions

Pre-Payment Solution

SMART Software

We have a fully hosted web based software solution that is considered to be the best on the market. Instant access to energy usage data is available to both Landlord and tenant to help build trust and confidence.

Meter readings are uploaded automatically on a scheduled basis for the user to view, analyse and download. The online web portal can also be used for uploading prepaid credits to meters as well as performing remote tariff updates.

Pre-Payment with PayPoint

Energy Controls is proud to be able to offer the national **PayPoint** service to Landlords and Property Managers within the secondary market.

Using **PayPoint** minimises the need for cash handling and has many benefits for the landlord as well as the site management team, with less cash to handle, reduced administrative overheads and more quality time to service their tenants and/or guests.

S

Smartphone App

With the new Energy Controls App, users of our SMART Pre-Pay system can now make energy payments from their tablet or smartphone.

- Make payments directly from a smartphone
- **Quick, safe and secure**
- Download the App for FREE from the App Store or Google Play

Online payments

Our new online, cashless prepayment service provides benefits to **BOTH** the Landlord **AND** the consumer:-

- Electricity credits can be purchased anywhere
- **Eliminates the need for cash handling**
- Dramatically reduces administration
- **Safe, secure and completely visible**

Key Features

- **Each meter is approved to MID standards**
- Built-in GSM Modem + SIM card
- **Choose a data package to suit your application**
- Prepayment of energy supplies
- **Multiple ways to pay/top-up your meter**
- Friendly disconnection override
- **Remote disconnect/reconnect of supply**

Consumer Friendly

Our SMART meters come equipped with many consumer friendly optional settings that are designed to prevent out of hours power loss; these include:-

- Push-button **Emergency Credit**,
- **Disconnection Override** periods and **predefined Holiday Dates** when power will remain on even if the meter runs into debt.

Not only are these settings good for the consumer, they also relieve pressure on the Landlord/energy reseller, leaving you free to get on with running your business.

Our GSM SMART Meters provide the most flexible metering solution available to give you complete control of your energy supplies

Prepayment is our speciality!

All Energy Controls' meters are approved to MID (Measuring Instruments Directive) standards and are manufactured to meet the demanding requirements of regulations and standards set by the Energy Supply Companies.

A GSM/GPRS Modem + SIM card is fitted as standard and wireless communication to our web based software application is simple to set up. You can choose a data package to suit your needs whether it's for billing using scheduled readings or Pre-Payment through the PayPoint network, online or via our App.

Testimonials

"Working with Energy Controls we have introduced a new cashless PayPoint system for the Smart Meters at our Travellers Sites. This system has been a huge improvement for the Council because not only does this mean that our staff no longer have to handle cash, the PayPoint service gives our residents greater flexibility and independence. I would not hesitate in recommending Energy Controls and their products & services".

Gypsy and Traveller Team Manager for West Sussex County Council

"Within the Leisure Industry we strive to ensure that we provide the best customer experience in the business. Making sure that our customers are charged accurately and fairly for their electricity is part of that aim and this is why we chose Energy Controls. Their Smart Meters have not only helped us to eliminate billing queries we are confident that we are saving thousands of pounds in costs previously spent reading meters!"

Development Manager, Darwin Escapes

"The way that we manage electricity is vitally important to our business and to the customer service we provide; but it can involve significant investment. With Energy Controls the entire process has been completely cost-neutral, from the supply and installation of the meters to the infrastructure and training. It's all covered by a small daily rental fee, which we can pass on to our customers through the meter."

Finance Director, Billing Aquadrome

ENERGY CONTROLS
Metering, Measuring and Managing Resources

Who we are

Energy Controls is an award winning supplier of electricity SMART meters and Pre-Payment metering systems.

With over 25 years' experience behind us we know everything there is to know about providing the best metering solutions for Landlords and sub-metering installations.

Our customers know that they can trust in us to provide them with the most accurate and advanced metering systems, combined with the highest standards of service.

Pre-payment Services

Energy Controls is the UK's No.1 operator of Pre-Payment metering services. We have invested heavily in our IT infrastructure to ensure that we have the most reliable and robust web based software solution.

We have recently joined forces with PayPoint in order to enable landlords and property managers to operate a seamless and cashless 'Pay-As-You-Go' service for making energy payments.

Money Never Sleeps!

Our customers can monitor energy consumption and track payments anytime, anywhere using our secure web based portal
